COMPETENCIES and FUNCTIONAL SKILLS

Proven Leadership | Attention to detail | Troubleshooting | Creativity | Initiative | Collaboration | Customer Service | Adaptability

EDUCATION

Eleven Fifty Academy, Full-Stack Web Development – Fishers, IN **July 2021 - February 2022**
24-week immersive learning program for Web Development taught with industry-guided curriculum, real-world project-based learning, and 500+ hours of logged coding time and training.

Indiana University, The Media School – Bloomington, IN **August 2014 - May 2019**
Engaged with courses part-time while working full-time as Information Technology Coordinator at UITS. In midst of pandemic, spearheaded my career aspirations by attending E.F.A. to finish my education and enhance my skillset.
Major: Interactive and Digital Media

TECHNICAL PROJECTS

GameChest – React, PostgreSQL, Heroku, Express, NodeJS, Bcrypt, JWT, PostgreSQL, JWT, Team Git **bit.ly/GameChest**
In a team of three applying Git version control, developed a full stack web site. Personally led proper user management regarding login, register, and utilizing JWT and Bcrypt for authorized access to specific content. Utilized PostgreSQL as the backend database. Authorized users able to create their own content, with the ability to update and delete it as well.

Giphy Top Seven – Material Design Bootstrap 5, API, HTML5, CSS3, Firebase **bit.ly/GiphyProject**
Crafted a responsive site that shows the top seven search results fetching from the GIPHY API. Holds a stylized landing header, unique section break, and neatly organized card groups to bring about a comfortable user experience. Deployed on Firebase.

PROFESSIONAL EXPERIENCE

Information Technology Coordinator– Bloomington, IN **July 2018 - Present**
University Information Technology Services

- Ongoing project manager in developing and curating training for consultants ranging from onboarding staff in their first few weeks, advancing their skillset quarterly, to annual material. Personally instructed over 100 consultants and coached 30+ consultant supervisors.
- Implement technical documentation and sustain upkeep with 1,200+ article updates between internal documentation, the public Knowledge Base, and special projects for various departments, including the Center for Applied Cybersecurity Research.
- Delegated and managed IU Bloomington's on-campus staff during the height of the pandemic. Adapted to a campus-wide leadership role as a singular reliable resource for any department seeking guidance. Created and enforced guidelines for safety protocol when in-person. Finally, when forced to work remotely, evolved into an entirely new position temporarily in an abrupt learning experience.
